

Our Redemptive Business

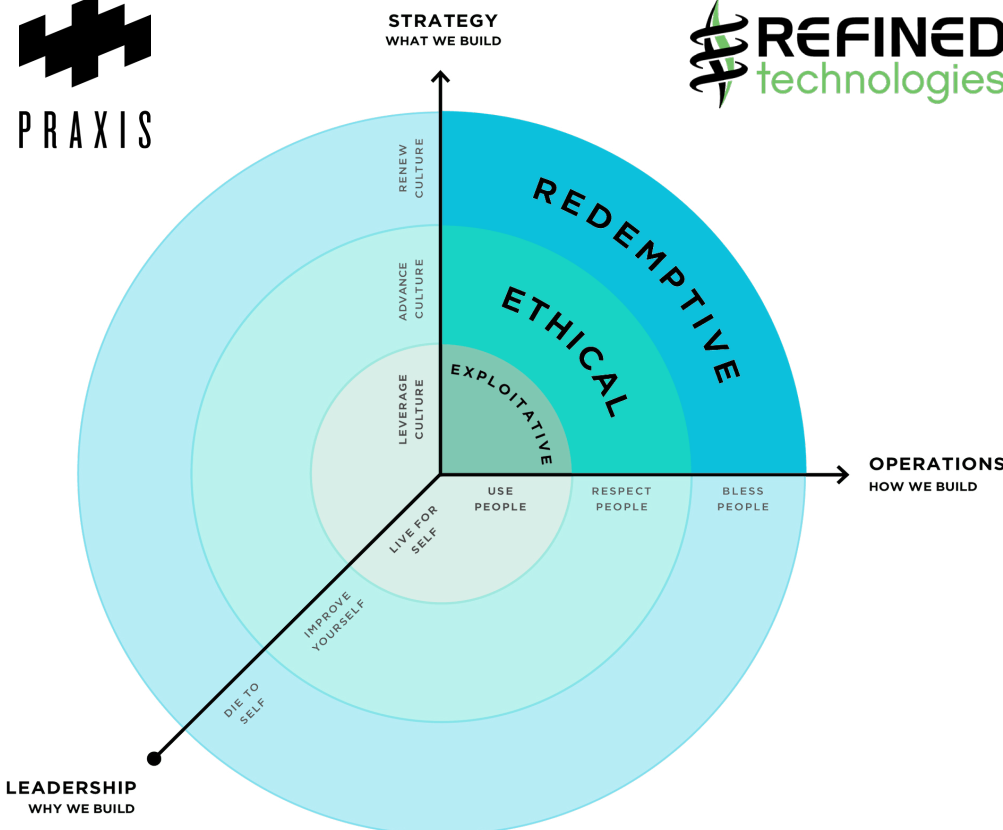

REFINED TECHNOLOGIES IS COMMITTED TO OPERATING AS A REDEMPTIVE BUSINESS

People, organizations, or communities approach the world in 3 ways.

1. **Exploitative** - To take all you can get and approach business with an “I win, you lose” scarcity mentality. The goal is to win and control.
2. **Ethical** - To do things right, keep the rules, add value, and do no harm. The goal is to be good and pursue “win-win” solutions when possible.
3. **Redemptive** - Is creative restoration through sacrifice, to bless others, renew culture, and give of ourselves. This means pursuing an “I sacrifice, we win” approach with resources available. The goal is to love and serve.

How RTI operates as a redemptive business:

- Culture of Forgiveness, Grace, Empathy, Openness
- Long term view on client and vendor relationships
- Earn a profit, not make a profit
- Second-Chance Hires
- Vision Trips and Child Sponsorships through World Vision
- Marriage Retreats & Adoption Assistance
- Charitable Giving and Matching
